Cisco UCS Integrated Infrastructure Solutions for Big Data and Analytics with

In collaboration with

MAPR

MapR

92% Reduction in query time with improved accuracy & 30% less time spent managing data clusters

"With the Cisco and MapR platform, Quantium has positioned itself to stay well ahead of our competitors for the foreseeable future."

Alex Shaw
Head of technology operations
Quantium

80x Performance improvement + 99.99% uptime since solution deployment

"We chose Cisco UCS because of its dense form factor... and MapR gives us ironclad security for our multitenant cloud-based services."

Brad Anderson
Vice president
Big data informatics
Liaison

How you benefit

Maximize benefit
Harness 100% of your data to benefit your business.

Process more data, faster
1 TB of data can be sorted across 8 nodes in 16 minutes.

Faster time to value
Deploy twice as fast as any other Hadoop solution with automatic deployment and configuration.

Unmatched performance
Greater than 12 times performance increase.

Simplified management
Take advantage of unified management for computing, networking, and storage.

Superior flexibility
Support many use cases and easily scale for any size data lake.

Cisco Unified Computing System (Cisco UCS)

- 62,000+ Cisco UCS® customers
- 150+ world-record benchmarks to date
- 32,000+ repeat customers
- More than 85% of Fortune 500 companies have invested in Cisco UCS
