To Whom It May Concern:

Acumen Security verified that the following software faithfully embeds a FIPS 140-2 validated cryptographic module,

- Cisco Stealthwatch v6.10

The software is known to operate on the following platforms:

- Cisco Stealthwatch SMC, Flow Collector (engine node and DB node), Flow Sensor, Flow Replicator (aka UDP Director), Endpoint Concentrator

During the course of the review, Acumen Security confirmed that the following FIPS 140-2 cryptographic module is incorporated into the product,

- CiscoSSL FIPS Object Module Version: 6.0, FIPS 140-2 certificate #2505

Acumen Security confirmed that the following features leverage the embedded module to provide cryptographic services, encryption, hashing, key derivation, key exchange, and asymmetric cryptography associated with the following services:

- SSH
- TLS

Additionally, Acumen Security confirmed that the above referenced cryptographic module is initialized in a manner consistent with the instructions provided in the non-proprietary Security Policy.

Details of the verification may be obtained from Cisco Systems, Inc. at the request of interested parties. This letter represents the independent opinions of Acumen Security and does not imply endorsement of the product by the CMVP or any other parties.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ashit Vora', with a checkmark below it.

Ashit Vora
Laboratory Director
