Product Migration Options

The customer can choose any of the suggested migration products depending on the performance/feature requirements. The 7206VXR/NPE-G2 bundle provides the highest performance amongst the suggested migration products with the Network Processing Engine NPE-G2 providing up to 2 Million packets per second (Mpps). The Cisco 7200 Network Processing Engine NPE-G2 is the most recent addition to the Cisco 7200VXR Series processor family.

The Network Processing Engine NPE-G2:

- Addresses the demand for performance and flexibility by dramatically increasing processing capacity and enabling unprecedented LAN performance
- Increases flexible processing to two million packets per second
- Maximizes LAN performance with three onboard GE/FE ports
- Increases scalability by supporting up to 2 GB of DRAM
- Offering USB ports for etoken and USB flash support
- Reduces system cost by eliminating the requirement for an I/O controller
- Maintains application flexibility and investment protection by supporting existing 7200 features at an unprecedented value.
- More information about the Cisco 7200 Network Processing Engine NPE-G2 can be found at:
