Cisco Identity Services Engine Software Version 1.1

Cisco announces the **end-of-life dates** for the Cisco Identity Services Engine (ISE) Software Version 1.1 software.

Software maintenance support for 1.1 and 1.1.x software releases end on **April 6, 2015**. No patches or maintenance releases will be provided for ISE 1.1 and 1.1.x releases after that date.

Software maintenance and application software support requires an active service contract. It will not be possible to purchase or renew Software Application Support (SAS) contract for those SW releases after **April 30, 2015**.

Product Migration Options

Customers are encouraged to upgrade to the latest ISE software version which is ISE 1.3 at the date of this announcement. ISE BASE, Wireless and ADV licenses installed with ISE 1.1 or 1.1.x software will be also active after the upgrade without loss of any functionality. If customers need additional end-points for Wireless or ADV licenses after upgrade to ISE 1.3 or later version, they need to purchase ISE Mobility or APEX license, respectively.
