Product migration options

There is no replacement available for the Cisco 1.2 GHz Flexible Solutions and Surge Gap Taps at this time.

Cisco is discontinuing the 1.25 GHz Tap and Passives product lines. We have extended the End-of-Sale period for these products to 1 year from the announcement date versus our normal End-of-Sale period of 6 months. If/when an alternative plan is established to make Cisco compatible Tap and Passive products available through another seller we will publish those plans separately.

Customers may be able to use the Cisco Technology Migration Program (TMP) where applicable to trade-in eligible products and receive credit toward the purchase of new Cisco equipment. For more information about Cisco TMP, customers should work with their Cisco Partner or Cisco account team. Cisco Partners can find additional TMP information on Partner Central at

https://www.cisco.com/web/partners/incentives_and_promotions/tmp.html.

Customers may be able to continue to purchase the Cisco 1.2 GHz Flexible Solutions and Surge Gap Taps through the Cisco Certified Refurbished Equipment program. Refurbished units may be available in limited supply for sale in certain countries on a first-come, first-served basis until the Last Date of Support has been reached. For information about the Cisco Certified Refurbished Equipment program, go to:

<https://www.cisco.com/go/eos>.

Service prices for Cisco products are subject to change after the product End-of-Sale date.

The Cisco Takeback and Recycle program helps businesses properly dispose of surplus products that have reached their end of useful life. The program is open to all business users of Cisco equipment and its associated brands and subsidiaries. For more information, go to:
