

View Placed Calls Through Web Interface on SPA300/SPA500 Series IP Phone

Objectives

Whenever a call is placed, the name of the person being called, extension number of the person being called, date and time of the call is recorded. The placed calls can be viewed without being directly in front of the phone by using the web interface of the IP Phone.

This document explains how to view placed calls through the web interface on the SPA300/SPA500 Series IP Phone.

Applicable Devices
