## Introduction

This document describes the steps needed to get the PAK registered and obtain the licenses for the legacy CURWB (formerly Fluidmesh) radios.

### Pre-requisites:

Before you start, you would need the following information to be available. It can be obtained from your Account Manager or Partner. The information may also be available in the eDelivery (Software License Claim Certificate) document that was provided when the order was placed.

*Cisco Sales Order Number*

*Cisco PO number*

*Product Authorization Key (PAK)*

*PAK Identification Number (PIN)*

*Sample Software License Claim Certificate:*

**Dear Customer,**

Thank you for your purchase of Cisco Software and/or Licenses. The information in this document is needed to claim your license. Retain this document for your records.

**Registration Information**

1. Log on to <http://www.cisco.com/go/license> and follow the registration instructions to obtain the license authorization key/file.
2. The Product Authorization Key (PAK) number(s) and PIN found below are required for the registration process.

3. Once the PAKs for CURWB licenses are registered, it can take up to 2 business days for the order to be processed and licenses to be generated and sent to you.
4. Please create an account from the same email address on the [CURWB Partners Portal](#)™ to access and use the licenses generated.
5. Once the order is processed, the licenses will be sent out via email from [plugins\\_fm@cisco.com](mailto:plugins_fm@cisco.com). Please login to the Partners Portal after you receive the email and access the licenses under the [Plugins Management](#)™ section.
6. If you experience any issues with completing the steps above, please open a TAC service request for assistance.
