Merge Your CDO and Cisco XDR Tenant Accounts

If your Secure Firewall Threat Defense or On-Prem Firewall Management Center is used with CDO or Cisco Security Analytics and Logging (SaaS) and Cisco XDR, you must link your CDO tenant account with the Cisco XDR tenant account associated with the device.

Be mindful of when you initiate this process. This merging process may take an extended amount of time.

See [Merge Accounts](#) for instructions.

Note If you have accounts on more than one regional cloud, you must merge accounts separately for each regional cloud.
