Overview

This document describes and provides links to the user documentation available for Cisco UCS Director. To find a document online, click one of the links in this roadmap. All Cisco releases of a document are accessible from the landing pages linked from this roadmap.

> **Note** Not all documents are updated for every release of Cisco UCS Director. If you do not see the document you want listed under a specific release, look for that document under an earlier release.

Release Note and Compatibility Information

Category	Description
Release Notes	The Release Notes provide the most current information about open and resolved caveats for each release of Cisco UCS Director.
	The complete list of release notes can be found here: http://www.cisco.com/en/US/products/ps13050/prod_release_notes_list.html.
Compatibility Information	The Compatibility Matrix provides interoperability information for Cisco UCS Director configurations that have been tested and validated by Cisco, by Cisco partners, or both. Use it as a reference for supported hardware and software.
	The complete list of compatibility matrices can be found here: http://www.cisco.com/c/en/us/support/servers-unified-computing/ucs-director/products-device-support-tables-list.html.
	Note The interoperability information for a particular release is dependent on third-party certification testing done after the release has been made public. Therefore, the interoperability information may not be available until several months after the release becomes publically available.
