

# Cisco Catalyst Center (formerly known as Cisco DNA Center) Integration

---

This chapter provides information on the integration of Cisco Spaces with Catalyst Center.

- [Overview, on page 1](#)
- [Integrate Cisco Spaces with Catalyst Center, on page 1](#)

## Overview

Cisco Spaces enables you to integrate with Cisco Catalyst Center (formerly known as Cisco DNA Center) so that you can monitor the Catalyst Center sites using Cisco Spaces.

---

**Note** The Catalyst Center and Cisco Spaces integration is currently limited to only automatic map exports and synchronization for the location hierarchy. The integration does not support captive portal-based authentication features.

---

For more information, see "About Cisco Spaces Integration" in the *Catalyst Center User Guide* at:

<https://www.cisco.com/c/en/us/support/cloud-systems-management/dna-center/products-user-guide-list.html>

### Prerequisites

- Catalyst Center, Release **2.1.2.3 or higher**.
- Catalyst Center must be able to connect to <https://dnaspaces.io:443> for the initial activation. It may also require access to <https://dnaspaces.eu:443> depending on your Cisco Spaces account region.

## Integrate Cisco Spaces with Catalyst Center

To integrate Cisco Spaces with Catalyst Center, perform the following steps:

## Procedure

---

**Step 1** Log in to [Cisco Spaces](#).

**Step 2** In the window, click the **Menu** icon () and choose **Integrations**.

**Step 3** In the Catalyst Center **Integration** window, click **Create Token**.

**Step 4** In the **Create new token** pop-up window, enter the Catalyst Center instance name and click **Create Token**.

A success message is displayed indicating that the new token is created successfully and the token is displayed in the Catalyst Center **Integration** window.

**Note**

The validity of the new token is two days.

**Step 5** Click **Copy Token** and use this tenant token in Catalyst Center.

**Step 6** Log into Catalyst Center.

**Step 7** Click the **Menu** icon () and choose **System > Settings**.

**Step 8** Click **CMX Servers/Cisco Spaces**.

**Step 9** In the **CMX Servers/Cisco Spaces** window, under the Cisco Spaces section, click **Activate**.

**Step 10** In the **Integrate Cisco Spaces** pop-up window, paste the tenant token and click **Connect**.

After the integration is complete with Cisco Spaces, the following success message is displayed: *This cluster is integrated with Cisco Spaces successfully*. The status is displayed as **Activated**.

After activating the Cisco Spaces token, you can assign Cisco Spaces to Catalyst Center sites and begin to monitor those sites. For more information, see the [Catalyst Center User Guide](#).
