

Gestion des planifications sur le routeur de la gamme RV34x

Objectif

Les planifications sont utiles pour la gestion de certaines fonctions du routeur. Un administrateur peut affecter un planning à une règle ou à une politique avec une heure de début et de fin spécifique, et les affecter à des jours spécifiques de la semaine. Cette fonctionnalité vous permet d'activer et de désactiver des stratégies en toute transparence à tout moment de la journée.

L'objectif de ce document est de vous montrer comment gérer une planification sur la configuration système du routeur de la gamme RV34x en ajoutant, en modifiant et en supprimant une planification.

Configurer Une Planification

Ajouter une planification

Étape 1. Connectez-vous à l'utilitaire Web et choisissez **Configuration système > Programmer**.

Étape 2. Dans la table Planification, cliquez sur **Ajouter** pour créer une planification.

The image shows a "Schedule Table" interface with a table of existing schedules and control buttons. The table has columns for Name, Start Time, End Time, and Days. The "Add" button is highlighted with a red box.

<input type="checkbox"/>	Name	Start Time	End Time	Days
