## Introduction

Ce document décrit comment dépanner l'échec de mise à jour automatique de Jabber Windows sur MRA de 11.7(x) à 11.8.

## Problème : Problème de mise à niveau sur MRA de 11.7.0 à 11.8.x

Vous essayez de mettre à niveau le client Jabber automatiquement sur MRA de 11.7.0 à 11.8.x. Cependant, il échoue même si une fenêtre de mise à jour apparaît. Alors que la mise à niveau automatique de 11,6 à 11,8 fonctionne bien.

## Dépannage

## Solution

Ce paramètre doit être ajouté dans le fichier de mise à jour jabber sous le paramètre Jabberupdate explicitement de la version 11.7 de jabber pour une mise à niveau automatique réussie sur MRA. Jusqu'à la version 11.6 de Jabber, elle est activée par défaut :

```
<AllowUpdatesViaExpressway>>true</AllowUpdatesViaExpressway>
```
