Guida di riferimento rapido per raccogliere i dati TAC richiesti dagli switch Nexus

Sommario

Introduzione

 In questo documento viene elencato il gruppo generico di comandi da raccogliere dagli switch Nexus durante/dopo un problema relativo ai casi TAC.

L'elenco dei comandi può essere incollato nella cli dello switch esattamente come è elencato senza modifiche. Alcuni comandi possono generare errori se le funzionalità corrispondenti non sono implementate. Questo è il risultato previsto e non causerà alcun problema.

Se hai associato proattivamente uno show tech alla richiesta TAC, puoi ignorare l'elenco di seguito.

Nexus 3000

L'elenco dei comandi può essere incollato nella cli dello switch esattamente come è elencato senza modifiche. $(SWITCHNAME) verrà sostituito automaticamente con il nome host.
