Referentiegids om TAC gevraagde outputs bij Nexus-switches te verzamelen

Inhoud

Inleiding

 Dit document bevat de generieke reeks opdrachten die u bij de Nexus-switches wilt ophalen tijdens/na een probleem met TAC-cases.

De opdrachtlijst kan zonder wijzigingen op de switch worden geplakt, precies zoals aangegeven. Sommige opdrachten kunnen onjuist zijn als de bijbehorende functies niet zijn geïmplementeerd. Dit is het verwachte resultaat en zal geen problemen veroorzaken.

Als u proactief een show-technologie aan de TAC-case hebt gekoppeld, kunt u de onderstaande lijst negeren.

Nexus 3000 switch

De opdrachtlijst kan zonder wijzigingen op de switch worden geplakt, precies zoals aangegeven. $(SWITCHNAME) wordt automatisch vervangen door de hostname.

```
