[Gerelateerde informatie](#)

[Inleiding](#)

Dit document biedt een voorbeeldconfiguratie voor IPsec tussen een Cisco 871 router en een Cisco 7200VXR router die Easy VPN (EzVPN) gebruikt. De 7200 werkt als de Makkelijk VPN-server en de 871 werkt als de Makkelijk VPN-afstandsbediening. In dit voorbeeld, worden de loopback interfaces op beide routers als privé netwerken gebruikt. Deze kunnen worden vervangen door andere interfaces, zoals FastEthernet of seriële interfaces, zoals vereist.

Om IPsec te configureren tussen een PIX/ASA 7.x en een Cisco 871-router die Easy VPN gebruikt, raadpleegt u [PIX/ASA 7.x Easy VPN met een ASA 5500 als de Server en Cisco 871 als het Easy VPN Configuration-voorbeeld](#).

Om IPsec te configureren tussen de Cisco IOS® Easy VPN Remote Hardware Client en de PIX Easy VPN Server, raadpleegt u [IOS Easy VPN Remote Hardware Client naar een PIX Easy VPN Server Configuratievoorbeeld](#).

Om een Cisco IOS-router als een EzVPN-router in [Network Extension Mode \(NEM\)](#) te configureren die zich verbindt met een Cisco VPN 3000 Concentrator, raadpleegt u [de Cisco EzVPN-client configureren op Cisco IOS met VPN 3000 Concentrator](#).

[Voorwaarden](#)

Vereisten

Zorg ervoor dat u een basisbegrip hebt van IPsec en de Cisco 7200/871 besturingssystemen voordat u deze configuratie probeert.

Gebruikte componenten

De informatie in dit document is gebaseerd op de volgende software- en hardware-versies:

- Cisco Easy VPN Server is een 7200 router (VXR) die Cisco IOS® software release 12.4(4)T1 draait
- Cisco Easy VPN Remote is een 871W router die Cisco IOS-software release 12.4(2)T1 draait

De informatie in dit document is gebaseerd op de apparaten in een specifieke laboratoriumomgeving. Alle apparaten die in dit document worden beschreven, hadden een opgeschoonde (standaard)configuratie. Als uw netwerk live is, moet u de potentiële impact van elke opdracht begrijpen.

Conventies

Raadpleeg [Cisco Technical Tips Conventions \(Conventies voor technische tips van Cisco\)](#) voor meer informatie over documentconventies.

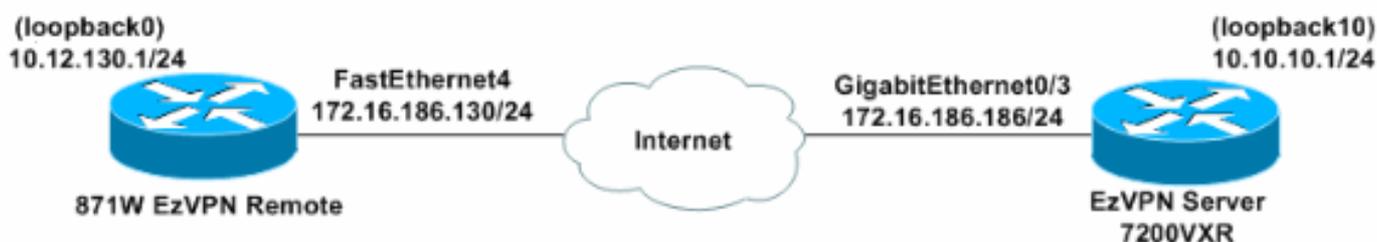

Configureren

Deze sectie bevat informatie over het configureren van de functies die in dit document worden beschreven.

N.B.: Gebruik het [Opdrachtupgereedschap \(alleen geregistreeerde\)](#) klanten) om meer informatie te vinden over de opdrachten die in dit document worden gebruikt.

Netwerkdigram

Het netwerk in dit document is als volgt opgebouwd:

Opmerking: Loopback-interfaces simuleren de binnenkant van pc's.

Configuraties

Dit document gebruikt deze configuraties:

- [Makkelijk VPN-server \(Cisco 7200VXR router\)](#)

- [Makkelijk VPN-afstandsbediening \(Cisco 871W router\)](#)

Makkelijk VPN-server (Cisco 7200VXR router)
