## Uninstall Cisco WAE

This procedure describes how to remove a Cisco WAE installation.

---

**Note** You can have more than one instance of Cisco WAE installed. When going through the uninstallation procedure, make sure you are removing the correct Cisco WAE installation and run-time directories.

---

---

**Step 1** From the WAE run-time directory, stop WAE services.

```
# wae --stop
```

**Step 2** Navigate to the parent directory and remove the WAE installation and run-time directories.

```
# rm -rf <wae_installation_directory>
# rm -rf <wae_run_time_directory>
```

---

### Example

For example:

```
# wae --stop
# cd
# rm -rf waeinstall
# rm -rf waerun
```
