Requirements

The following are required to successfully set up and use Cisco Secure Email Threat Defense:

- You have purchased Secure Email Threat Defense and received a welcome email.

- The latest version of one of the following browsers:

  - Google Chrome

  - Microsoft Edge

  - Mozilla Firefox

- If your Message Source is Microsoft 365 or your Visibility & Remediation mode uses Microsoft 365 Authentication:

  - A Microsoft 365 account with Global Admin rights.

  - An email address in your Microsoft 365 environment capable of receiving undeliverable journal reports. The email address used will not be journaled; do not use an address you want Secure Email Threat Defense to analyze.
